DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

After a careful review of claim 1, it appears that applicant has attempted to draft the claim using the preamble as admitted prior art. However, claim 1 was not properly drafted using the Jepson format (i.e., a claim of the type discussed in 37 CFR 1.75(e); see MPEP § 608.01(m)). Therefore, it is suggested that applicant should correct the followings in claim 1 to conform to the practice of using the Jepson-type claim:

line 1 of claim 1: delete "A structure of a" and substitute --In a--,

line 3 of claim 1: delete the entire line 3 from "wherein,..." to "...connections to",

line 4 of claim 1: delete "the spray arms being of the prior art;",

lines 8-9 of claim 1: the recitation "to connect the spray arm" should change to read --to connect a spray arm of the swivel spray arms--,

line 26 of claim 1: delete "to complete the assembly of the",

line 27 of claim 1: delete "prior art in the present invention characterized by that" and substitute --wherein the improvement comprises--,

line 27 of claim 1: the recitation "the spray arm being related to" should change to read --the spray arms including--,

lines 31-32 of claim 1: the recitation "the showerhead; to connect" should change to read --the showerhead to connect--.

Also in claim 2,

line 1, the recitation "The structure of a shower unit" should change to read--In the shower unit--,

lines 2-3: the recitation "wherein, the number of the spray arm is variable including a single spray arm depending on the specific purpose" should change to read--wherein the spray arm including at least one spray arm--.

The above-mentioned changes are strongly suggested (a) so that those elements and/or relationships which constitute that portion of the claimed combination which the applicant considers as the new or improved portion, and (b) in order to provide a clarification to the claim language.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

2. The following is an examiner's statement of reasons for allowance: none of the cited prior art teaches a claimed combination of a shower unit including the improved spray arms each having detailed coupling structures (i.e. inner tube with spray holes; two positioning bits to connect a press ring, a round join bolt, a check ring and a pivoting tube; and so on) in conjunction with other limitations to complete the assembly of the shower unit as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
